

## Minarets blocking the view of the Swiss Alps

Comment for '[Swiss Govt Unhappy With Minaret Referendum](#)' by Kawther Salam

Hello.

I found many of the comments [above] rather interesting that they are making this tortuous situation out as some tension between Muslims and Christians. It isn't really. The Hegelian Dialectics have something for everyone.

The Swiss Vote is along the same agenda as 'Osama Bin Laden', the 'Clash of Civilizations' – no wait, Daniel Pipes' rendering is even better: ***“[It is] Not a Clash of Civilizations, It's a Clash between the Civilized World and Barbarians.”***

I would humbly suggest reading the following – the title alone captures it: **“Islamofascism – Zionofascism – Judeofascism – Christofascism – Neofascism etc. An equitable distribution of Collateral Language!”**

<http://humanbeingsfirst.blogspot.com/2007/12/islamofascism-zionofascism-judeofascism.html>

And if it is 'islamofascism' the good Christian people in Europe are worried about, perhaps they might first try this: **“The complete guide to killing non-Jews”**

And then reflect on the 72 kg of Baxter contaminated virus that is waiting for their veins – courtesy of the International Banksters, right in their own backyards from whence their attention is being diverted on absurd gibberish that is being taken so seriously by a mind-controlled public attuned to compliance that it enables the rulers to get away with mind-blowing atrocities in their name (democracy right?):

If however some still haven't lost all of their commonsense, they would see that the 'islamofascism', like the 'swine-flu', like the 'global warming', like the 'global financial collapse', like the 'global war on terror', and like Zionism too, is a Hegelian Dialectic designed and fabricated for an altogether different agenda that is abusing Muslims, Jews, Christians, mankind, and also its Sciences, literature, arts, and zeitgeist, all in the service of an atheistic one-world government empire of the oligarchs to be apparently rooted in Jerusalem.

Where is the empirical evidence for any of that? Well, those from whom the Zen of reflection has been snatched at the altar of the pursuit of their 'American Dreams' won't see it even as they are laid under the butchers knife smiling – for ***“none are more hopelessly enslaved than those who are falsely led to believe they are free”*** ...

But here is my little attempt to reclaim that Zen back for the conscionable member of mankind who isn't merely a shill, asset, agent, or sayanim, who isn't merely an indoctrinated fool or tool, and who is genuinely seeking to make sense of all this bizarre and confusing perversity both in their own self-defense, as well as in empathy with fellow humanity – for this Zen is a bit like the ***“finger pointing away to the moon. Don't concentrate on the finger or you will miss all that heavenly glory”***! All one has to do is turn one's head every so slightly and just bother to look where the finger is pointing to:

Thank you.
